

Horses showing vice

No horse shall play with a dangerous vice, such as **kicking, biting** or **rearing**. If a horse has been ruled as a horse with a vice and sent off the field, relevant documentation must be completed. (Report that supplies information about the incident and a chart to record colour, gender, height, brands, markings and scars etc.)

For the horse to be eligible to play again:

1. The horse needs to be played at three club practices under the supervision of the Zone Chief Umpire or an A Grade Umpire.
2. The owner/player to notify the senior chief umpire of the tournament that they intend to return to compete. At least 3 games must be supervised by the State Chief Umpire or an A Grade Umpire attending the tournament.
3. If the horse shows any sign of vice again the horse should be removed from the field and competition.
4. The horse will be banned from Polocrosse for the rest of it's life.
5. Documentation must be sent to the relevant State Chief Umpire, National Executive Officer and Australian Chief Umpire for recording.
